ANNUAL FINANCIAL STATEMENTS

(Date)

Office of Legislative Auditor
Attention: Ms. Suzanne Elliott
P.O. Box 94397
1600 North Third
Baton Rouge, LA 70804-9397

Dear Ms. Elliott:

In accordance with Louisiana Revised Statute 24:514, enclosed are the annual financial statements of the _____ Parish Sheriff as of and for the year ended June 30, _____. The statements include all funds under the control and oversight of the sheriff (list any exceptions). The accompanying financial statements have been prepared in accordance with accounting principles generally accepted within the United States (list any exceptions or specify "the cash basis of accounting" instead of "in accordance with generally accepted accounting principles").

Louisiana Revised Statutes 42:283-286 require the sheriff to file annual financial reports with the parish police jury (council) and clerk of court. The _____ Parish Sheriff has complied with these reporting requirements. These financial reports were submitted to the _____ Parish Police Jury and _____ Parish Clerk of Court and included expenditures made by the sheriff's office for the year ended June 30, _____, classified under the following headings:

1. Salary of sheriff
2. Salaries of deputies
3. Salaries of other employees
4. Office supplies and furnishings
5. Purchase of automobiles and other vehicles
6. Maintenance and upkeep of automobiles
7. Transporting prisoners, fugitives, and insane persons
8. Feeding prisoners
9. Other expenditures

In addition to the above, the names of all deputies and other employees, including their salary or compensation paid during the fiscal year was reported to the parish police jury and clerk of court.

Sincerely,

Sheriff

Enclosure

Management Discussion and Analysis

As of and for the Year Ended June 30, 20__

[The basic financial statements should be preceded by management's discussion and analysis (MD&A), which is required supplementary information (RSI). MD&A should provide an objective and easily readable analysis of the government's financial activities based on currently known facts, decisions, or conditions. (GASB Statement 34, ¶8)

MD&A should discuss the current-year results in comparison with the prior year, with emphasis on the current year. This fact-based analysis should discuss the positive and negative aspects of the comparison with the prior year. The use of charts, graphs, and tables is encouraged to enhance the understandability of the information. (GASB Statement 34, ¶9)

MD&A requirements established by GASB Statement 34, ¶11 (a) through (h) are discussed in general rather than specific terms to encourage financial managers to effectively report only the most relevant information and to avoid "boiler-plate" discussion. The information presented should be confined to the topics discussed. Governments can provide additional details about the required topics in (a) through (h). **Information that does not relate to the required topics should not be included in MD&A, but may be provided elsewhere, such as in the letter of transmittal or in other forms of supplementary information.** (GASB Statement 37, ¶4)

In the first period that this Statement is applied, governments are not required to restate prior periods for purposes of providing the comparative data for MD&A as required in paragraph 11. However, governments are encouraged to provide comparative analyses of key elements of total governmental funds and total enterprise funds in MD&A for that period. Also in the first year of implementation, MD&A should include a statement that, in future years, when prior-year information is available, a comparative analysis of government-wide data will be presented. (GASB Statement: 34, ¶145)]

PARISH SHERIFF

Notes to the Financial Statements
As of and for the Year Ended June 30, 20__

INTRODUCTION

As provided by Article V, Section 27 of the Louisiana Constitution of 1974, the sheriff serves a four-year term as the chief executive officer of the law enforcement district and ex-officio tax collector of the parish. The sheriff administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, and serving subpoenas.

As the chief law enforcement officer of the parish, the sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The sheriff provides protection to the residents of the parish through on-site patrols and investigations and serves the residents of the parish through the establishment of neighborhood watch programs, anti-drug abuse programs, et cetera. In addition, when requested, the sheriff provides assistance to other law enforcement agencies within the parish.

As the ex-officio tax collector of the parish, the sheriff is responsible for collecting and distributing ad valorem property taxes, parish occupational licenses, state revenue sharing funds, sporting licenses, and fines, costs, and bond forfeitures imposed by the district court.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying basic financial statements of the _____ Parish Sheriff have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements and Management's Discussion and Analysis—for State and Local Governments*, issued in June 1999.

B. REPORTING ENTITY

The sheriff is an independently elected official; however, the sheriff is fiscally dependent on the _____ Parish Police Jury. The police jury maintains and operates the parish courthouse in which the sheriff's office is located and provides funds for equipment and furniture of the sheriff's office. Because the sheriff is fiscally dependent on the police jury, the sheriff was determined to be a component unit of the _____ Parish Police Jury, the financial reporting entity.

The accompanying financial statements present information only on the funds maintained by the sheriff and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. FUND ACCOUNTING

The sheriff uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain sheriff functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

Governmental Funds

Governmental funds account for all or most of the sheriff's general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations of the sheriff. The following are the sheriff's governmental funds:

General Fund - the primary operating fund of the sheriff and it accounts for all financial resources, except those required to be accounted for in other funds. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to sheriff policy.

(Describe the purpose and use of any other governmental funds included in the accompanying statements).

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The only funds accounted for in this category by the sheriff are agency funds. The agency funds account for assets held by the sheriff as an agent for various taxing bodies (tax collections) and for deposits held pending court action. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Consequently, the agency funds have no measurement focus, but use the modified accrual basis of accounting.

D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Fund Financial Statements (FFS)

The amounts reflected in the General Fund and Other Funds, of Statements A and B, are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of sheriff operations.

The amounts reflected in the General Fund and Other Funds, of Statements A and B, use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The sheriff considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

(This space should be used to describe when various revenues are reported. Specifically, ad valorem taxes, grants, and any other material revenues should be described.)

Expenditures

(This space should be used to describe when various expenditures are reported. Specifically, salaries and capital outlays (if any) should be described.)

_____ Parish Sheriff

Notes to the Financial Statements
As of and for the Year Ended June 30, 20__

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid (and any other financing source/use) are accounted for as other financing sources (uses). (Also, include when recorded.)

Deferred Revenues

Deferred revenues arise when resources are received by the sheriff before it has a legal claim to them, as when grant monies are received before the incurrence of qualifying expenditures. In subsequent periods, when the sheriff has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and the revenue is recognized.

Government-Wide Financial Statements (GWFS)

The column labeled Statement of Net Assets (Statement A) and the column labeled Statement of Activities (Statement B) display information about the sheriff as a whole. These statements include all the financial activities of the sheriff. Information contained in these columns reflect the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

Program Revenues - Program revenues included in the column labeled Statement of Activities (Statement B) are derived directly from sheriff users as a fee for services; program revenues reduce the cost of the function to be financed from the sheriff's general revenues.

Reconciliation

The reconciliation of the items reflected in the funds columns to the Statement of Activities (Statement B) and Statement of Net Assets (Statement A) are as follows:

_____	\$ _____
_____	\$ _____
_____	\$ _____
_____	\$ _____

E. BUDGETS

The sheriff uses the following budget practices:

[This space should be used to describe the sheriff's budget practices. The comments should include the following:

1. The budgetary calendar [specific dates or time frame for (a) when the budget is published in the official journal and made available for public inspection; (b) when the public hearing for the proposed budget was held; and (c) when the budget was adopted].
2. Whether or not appropriations (unexpended budget balances) lapse at year-end.
3. Procedures relative to outstanding encumbrances.
4. Basis of preparing and reporting the budgets and those funds not budgeted and those components excluded from the budget comparison.
5. The level of administrative authority to make changes or amendments within various budget classifications. Also, disclose if amendments have been made to the original budget and if all amendments are reflected in the budget comparison.

_____ Parish Sheriff

Notes to the Financial Statements
As of and for the Year Ended June 30, 20__

There should be a reconciliation of any non-GAAP budget amounts on Schedule 1 to the amounts on Statement B, using the excess of revenues and other sources over expenditures and other uses as the base of the reconciliation.]

F. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. [Include the sheriff's established policy concerning which short-term, highly liquid investments it will treat as cash equivalents. For example, cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less.] Under state law, the sheriff may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

G. INVESTMENTS

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955 and the sheriff's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

[GASB Statement No. 31 requires the following disclosures:

1. The methods and significant assumptions used to estimate the fair value of investments, if that fair value is based on other than quoted market prices.
2. The policy for determining which investments, if any, are reported at amortized cost.
3. For any investments in external investment pools that are not SEC-registered, a brief description of any regulatory oversight for the pool and whether the fair value of the position in the pool is the same as the value of the pool shares.
4. Any involuntary participation in an external investment pool.
5. If an entity cannot obtain information from a pool sponsor to allow it to determine the fair value of its investment in the pool, the methods used and significant assumptions made in determining that fair value and the reasons for having had to make such an estimate.
6. Any income from investments associated with one fund that is assigned to another fund.

GASB Statement No. 31 requires the sheriff to report investments at fair value in the balance sheet, except as follows:

1. Investments in *nonparticipating* interest-earning contracts, such as nonnegotiable certificates of deposit with redemption terms that do not consider market rates, should be reported using a cost-based measure, provided that the fair value of those contracts is not significantly affected by the impairment of the credit standing of the issuer or other factors.
2. The sheriff may report at amortized cost money market investments and participating interest-earning investment contracts that have a remaining maturity at time of purchase of one year or less, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments that include U.S. Treasury obligations. Interest-earning investment contracts include time deposits with financial institutions (such as certificates of deposit), repurchase agreements, and guaranteed investment contracts.

You should refer to GASB Statement No. 31 for guidance relating to the reporting and disclosures of investments and investment income.]

Notes to the Financial Statements

**H. SHORT-TERM INTERFUND
RECEIVABLES/PAYABLES**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as due from other funds or due to other funds on the balance sheet. Short-term interfund loans are classified as interfund receivables/payables.

I. ADVANCES TO OTHER FUNDS

Noncurrent portions of long-term interfund loan receivables are reported as advances and are offset equally by a fund balance reserve account, which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation.

J. INVENTORIES

[The accounting policies for inventory (if any) should be included here.]

K. PREPAID ITEMS

(Describe the sheriff's policy for prepaid items.)

L. CAPITAL ASSETS

Capital assets are capitalized at historical cost or estimated cost (the extent to which fixed asset costs have been estimated and the methods of estimation should be disclosed) if historical cost is not available (or describe other method of valuation). Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The sheriff maintains a threshold level of \$_____ or more for capitalizing capital assets.

Capital assets are recorded in the Statement of Net Assets and Statement of Activities. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land improvements	___ - ___ years
Buildings and building improvements	___ - ___ years
Furniture and fixtures	___ - ___ years
Vehicles	___ - ___ years

M. COMPENSATED ABSENCES

The sheriff has the following policy relating to vacation and sick leave: (If the sheriff does not have a formal leave policy or the leave policy does not provide for the accumulation and vesting of leave, the notes should so state.)

The sheriff's recognition and measurement criteria for compensated absences follows: [GASB Statement No. 16 provides that vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if *both* of the following conditions are met:

- The employees' rights to receive compensation are attributable to services already rendered.
- It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

GASB Statement No. 16 provides that a liability for sick leave should be accrued using one of the following termination approaches:

- An accrual for earned sick leave should be made only to the extent it is probable that the benefits will result in termination payments, rather than be taken as absences due to illness or other contingencies, such as medical appointments and funerals.

Parish Sheriff

Notes to the Financial Statements
As of and for the Year Ended June 30, 20__

- b. Alternatively, a governmental entity should estimate its accrued sick leave liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as well as other employees who are expected to become eligible in the future to receive such payments.

The current portion of the liability for compensated absences should be reported in the fund financial statements. The current portion is the amount left unpaid at the end of the reporting period that normally would be liquidated with expendable available financial resources. The remainder of the liability should be adjusted into the entity-wide column on Statements A and B.]

N. RESTRICTED NET ASSETS

For government-wide statement of net assets, net assets are reported as restricted when constraints placed on net asset use are either:

1. externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; and
2. imposed by law through constitutional provisions or enabling legislation.

O. FUND EQUITY

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Any designations of fund balance represent tentative management plans that are subject to change.

P. EXTRAORDINARY AND SPECIAL ITEMS

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the sheriff, which are either unusual in nature or infrequent in occurrence.

Q. INTERFUND TRANSACTIONS

Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transactions are reported as transfers.

R. SALES TAXES

(Detail any sales taxes received by the sheriff, the rate, purpose, expiration date, et cetera.)

S. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

2. DEFICIT FUND EQUITY

5. CASH AND CASH EQUIVALENTS

At June 30, 20__, the sheriff has cash and cash equivalents (book balances) totaling \$_____ as follows:

Parish Sheriff

Notes to the Financial Statements
As of and for the Year Ended June 30, 20__

Demand deposits	\$ _____
Interest-bearing demand deposits	_____
Time deposits	_____
Other	_____
 Total	 \$ _____

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At June 30, 20__, the sheriff has \$_____ in deposits (collected bank balances). These deposits are secured from risk by \$_____ of federal deposit insurance and \$_____ of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3). [If deposits are not fully secured, add the following: The remaining balance of \$_____ is not secured by the pledge of securities and is a violation of state law.]

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the sheriff that the fiscal agent has failed to pay deposited funds upon demand.

6. INVESTMENTS

Investments are categorized into three categories of credit risk:

1. Insured or registered, or securities held by the sheriff or its agent in the sheriff's name
2. Uninsured and unregistered, with securities held by the counter party's trust department or agent in the sheriff's name
3. Uninsured and unregistered, with securities held by the counter party, or by its trust department or agent but not in the sheriff's name

At fiscal year-end, the sheriff's investment balances were as follows:

(There should be a discussion of bad debt accounting and write-off policy. Also, significant receivable balances not expected to be collected within one year of the date of the financial statements should be disclosed.)

8. INTERFUND RECEIVABLES/PAYABLES

[GASB Statement No. 38 requires the following details to be disclosed for interfund balances reported in the fund financial statements:

- a. Amounts due from other funds by individual major fund, nonmajor governmental funds in the aggregate, nonmajor enterprise funds in the aggregate, internal service funds in the aggregate, and fiduciary fund type
- b. The purpose for interfund balances
- c. Interfund balances that are not expected to be repaid within one year from the date of the financial statements.]

(This disclosure should acknowledge any violation of the state's investment laws or the sheriff's investment policy.)

10. PENSION PLAN

Plan Description. Substantially all employees of the _____ Parish Sheriff's Office are members of the Louisiana Sheriffs Pension and Relief Fund (System), a cost-sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees.

All sheriffs and all deputies who are found to be physically fit, who earn at least \$400 per month, and who were between the ages of 18 and 50 at the time of original employment are required to participate in the System. Employees are eligible to retire at or after age 55 with at least 12 years of credited service and receive a benefit, payable monthly for life, equal to a percentage of their final-average salary for each year of credited service. The percentage factor to be used for each year of service is 2.5% for each year if total service is at least 12 but less than 15 years, 2.75% for each year if total service is at least 15 but less than 20 years, and 3% for each year if total service is at least 20 years (Act 1117 of 1995 increased the accrual rate by 0.25% for all service rendered on or after January 1, 1980.) In any case, the retirement benefit cannot exceed 100% of their final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 and receive the benefit accrued to their date of termination as indicated previously. Employees who terminate with at least 20 years of credited service are also eligible to elect early benefits between ages 50 and 55 with reduced benefits equal to the actuarial equivalent of the benefit to which they would otherwise be entitled at age 55. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Louisiana Sheriffs Pension and Relief Fund, Post Office Box 3163, Monroe, Louisiana 71220, or by calling (318) 362-3191.

Funding Policy. Plan members are required by state statute to contribute 8.7% of their annual covered salary and the _____ Parish Sheriff is required to contribute at an actuarially determined rate. The current rate is 5.0% of annual covered payroll. Contributions to the System also include one-half of one percent of the taxes shown to be collectible by the tax rolls of each parish and funds as required and available from insurance premium taxes. The contribution requirements of plan members and the _____ Parish Sheriff are established and may be amended by state statute. As provided by R.S. 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The _____ Parish Sheriff's contributions to the System for the years ending June 30, _____, _____, and _____,

_____ Parish Sheriff
Notes to the Financial Statements
As of and for the Year Ended June 30, 20__

were \$_____, \$_____, and \$_____, respectively, equal to the required contributions for each year. (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)

11. OTHER POSTEMPLOYMENT BENEFITS

[GASB Statement No. 12 requires, as a minimum, the following disclosures if the sheriff provides other postemployment benefits (OPEB). The disclosures may be made separately for one or more types of benefits or in the aggregate for all OPEB provided.

- A. A description of the OPEB provided, employee groups covered, eligibility requirements, and the employer and participant obligations to contribute, quantified in some manner (for example, the approximate percentage of the total obligation to contribute that is borne by the employer and the participants, respectively, or the dollar or percentage contribution rates).
- B. A description of the statutory, contractual, or other authority under which OPEB provisions and obligations to contribute are established.
- C. A description of the accounting and financing or funding policies followed. For example, a statement that the employer's contributions are financed on a pay-as-you-go basis or are advance-funded on an actuarially determined basis. If OPEB are advance-funded on an actuarially determined basis, the employer should also disclose the actuarial cost method and significant actuarial assumptions (including the interest rate and, if applicable, the projected salary increase assumption and the health inflation assumption) used to determine funding requirements, and the method used to value plan assets.
- D. The following expenditure/expense information, depending on how OPEB are financed:
 - (1) If OPEB are financed on a pay-as-you-go basis, the amount of OPEB expenditures/expenses recognized during the period by the employer (net of participant contributions); also, disclose the number of participants currently eligible to receive benefits. If expenditures/expenses for OPEB cannot readily be separated from expenditures/expenses for similar types of benefits provided to active employees and their dependents, employers should use reasonable methods to approximate OPEB expenditures/expenses. If a reasonable approximation cannot be made, employers should state that OPEB expenditures/expenses cannot be reasonably estimated.
 - (2) If OPEB are advance-funded on an actuarially determined basis, the number of active plan participants, the employer's actuarially required and actual contributions for the period (net of contributions), the amount of net assets available for OPEB, and the actuarial accrued liability and unfunded actuarial accrued liability for OPEB according to the actuarial cost method in use.
- E. A description (and the dollar effect, if measurable) of any significant matters that affect the comparability of the disclosures with those for the previous period (for example, a change in benefit provisions).
- F. Any additional information that the employer believes will help users assess the nature and magnitude of the cost of the employer's commitment to provide OPEB.]

In accordance with R.S. 39:562, the sheriff is legally restricted from incurring long-term bonded debt in excess of 35% of the assessed value of taxable property. At June 30, 20__, the statutory limit is \$_____, and outstanding bonded debt totals \$_____.

16. INTERFUND TRANSFERS

[GASB Statement No. 38 requires the following details about interfund transfers reported in the fund financial statements:

- a. Amounts transferred from other funds by individual major fund, nonmajor governmental funds in the aggregate, nonmajor enterprise funds in the aggregate, internal service funds in the aggregate, and fiduciary fund type
- b. A general description of the principal purposes of the government's interfund transfers
- c. The intended purpose and the amount of significant transfers that meet either or both of the following criteria:
 - (1) Do not occur on a routine basis—for example, a transfer to a wastewater enterprise fund for the local match of a federal pollution control grant
 - (2) Are inconsistent with the activities of the fund making the transfer—for example, a transfer from a capital projects fund to the general fund.]

17. RELATED PARTY TRANSACTIONS

(FASB 57 requires the disclosure of the description of the relationship, the transactions, the dollar amount of the transactions, and any amounts due to or from that result from related party transactions. List all related party transactions.)

18. RISK MANAGEMENT

[The following information should be disclosed, if applicable:

1. A description of the risks of loss to which the _____ is exposed and the way(s) in which those risks of loss are handled (for example, purchase of commercial insurance, participation in a public entity risk pool, risk retention).
2. A description of significant reductions in insurance coverage from coverage in the prior year by major categories of risk. Also indicate whether the amount of settlements exceeded insurance coverage for each of the past three fiscal years.
3. If the _____ participates in a risk pool, a description of the nature of the participation, including the rights and the responsibilities of both the entity and the pool.
4. If the _____ retains the risk of loss:
 - The basis for estimating the liabilities for unpaid claims, including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, and subrogation, and whether other allocated or unallocated claim adjustment expenditures/expenses are included.
 - The carrying amount of liabilities for unpaid claims that are presented at present value in the financial statements and the range of discount rates used to discount those liabilities.
 - The aggregate outstanding amount of claims liabilities for which annuity contracts have been purchased in the claimants' names and for which the related liabilities have been removed from the balance sheet. (Annuity contracts used to settle claims for which the claimant has signed an agreement releasing the entity from further obligation and for which the likelihood that the pool will be required to make future payments on those claims is remote should not be included in this disclosure.)
 - A reconciliation of changes in the aggregate liabilities for claims for the current fiscal year and the prior fiscal year, in the following tabular format:
 - Amount of claims liabilities at the beginning of each fiscal year.
 - Incurred claims, representing the total of a provision for events of the current fiscal year and any change (increase or decrease) in the provision for events of prior fiscal years.
 - Payments of claims attributable to events of both the current fiscal year and prior fiscal years.
 - Other. (Provide an explanation of each material item.)
 - Amount of claims liabilities at the end of each fiscal year.]

(For additional information and example note disclosures, refer to GASB Codification Section C50.)

19. LITIGATION AND CLAIMS

At June 30, 20__, the sheriff is involved in _____ lawsuits or is aware of claims totaling \$_____, which are not covered by insurance. Of this amount, \$_____ has been recorded as a liability. The ultimate resolution of the remaining amount would not materially affect the financial statements in the estimation of the legal advisor for the sheriff (or the legal advisor is unable to estimate the ultimate resolution of such matters).

20. ON-BEHALF PAYMENTS

(Note to the preparer of the financial statements: GASB Statement 24 requires that on-behalf payments for fringe benefits and salaries be recognized as revenue and expenditures or expenses and that the notes to the financial statements disclose the amounts recognized. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends. You should refer to GASB Statement 24 for guidance relating to the recognition and measurement of on-behalf payments for fringe benefits and salaries.)
